Liquor Inventory Management & Draft Beer Controls

EVERY OUNCE COUNTS!

SCAN ME

Scan, Weigh, and Track your Inventory

Simply scan the bottle and place it on the scale, the app identifies the bottle and takes care of the rest. Scan. Weigh. Track. It's that easy.

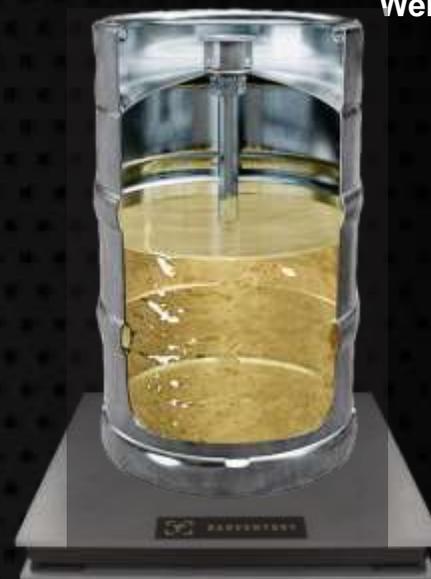

State of the Art Flow Meters

- Track and monitor in real-time the draft beer ounces pour throughout the day
- Real-time keg inventory tracking
- Liquid temperature tracking to avoid foamy beer

Over 40 POS Interfaces

Wireless Keg Scales

You can see into your kegs to know how much you have left, and how much has been poured.
